OVERSIZE; 28.5 LINEAR FEET, 1 MAP CASE**

**ABSTRACT**

Muriel Sibell Wolle was the head of the University of Colorado Fine Arts Department from 1929 to 1947. Her collection consists of selected Western Americana, which is mostly printed material, scrapbooks, articles, manuscripts, scene and costume sketches, programs and other memorabilia, photographs, negatives, slides, and a few books. Her paintings, lithographs, and photographs of Western mining towns form an invaluable historical record of Western America. She had a special interest in Southwestern and Native American Art. The Western History Collections Department of the Denver Public Library holds 29 linear feet of the Muriel Sibell Wolle manuscript collection, including many of her original works of art, maps, photographs, scrapbooks compiled on Western towns, her journals and field notes, various drafts of *Stampede to Timberline*, and several unidentified diaries. Researchers should be aware of these holdings and incorporate them into any research being undertaken.

## **BIOGRAPHY**

Muriel Sibell was born in Brooklyn, New York on April 3, 1898 and graduated from the New York School of Fine and Applied Arts in 1920 with diplomas in advertising and costume design. After graduation, she accepted a teaching position at the Texas State College for Women in Denton, Texas, but returned to New York. An instructor in Art at the Parson School of design from 1923-1926, Sibell began looking for a teaching position in the West. She received a B.S. in Art Education from New York University, and later received an M.A. in English Literature from the University of Colorado. She was head of the Department of Fine Arts at the University of Colorado from 1927 to 1947, teaching and adding many options to the department while presiding over its extraordinary growth.

Upon her arrival in Colorado, she was struck by the beauty of the mountains and began traveling into deserted mountain mining towns to sketch the remains of communities that were fast disappearing. Her sketches and watercolors provide an invaluable record of the otherwise forgotten and lost ghost towns of Colorado and the West. Ms. Sibell also authored many articles and several books about the history of the disappearing ghost towns. She became a nationally recognized author with the publication of *Stampede to Timberline*, *The Bonanza Trail*, *Montana Pay Dirt*, and *Timberline Tailings*, which she both authored and illustrated.

Muriel Sibell was also an important part of the theatre community at the University of Colorado. She designed sets and costumes for many theatre productions, and preserved the programs and photographs of these productions. Through these activities she met her future husband. In 1945 she married Francis Wolle, a professor of English at the University, after a friendship of 18 years. They were members of St. Aidan's Church, and Mrs. Muriel Sibell Wolle was active in helping her husband, who became an ordained perpetual deacon in the Episcopal Church following his retirement from the University in 1959.

Mrs. Wolle was active in numerous civic organizations, such as the Soroptomist Club, Delta Phi Delta, the Boulder Artist's Guild, and received many honors and prizes for her professional work. She was chosen in 1947 as the Research Lecturer for the University, the first woman to be so honored. In 1976 Muriel Sibell Wolle was honored as an Alumni of the Century. To the end of her life she remained active in her community and continued to keep her artistic record of America's mining past.

Muriel Sibell Wolle died on January 9, 1977.

## **SCOPE AND CONTENT**

The Muriel Sibell Wolle collection is organized into scrapbooks, personal papers, materials pertaining to the theatre, information collected by Mrs. Wolle regarding Native Americans, research and manuscript materials, miscellaneous materials, audio/visual materials, and oversized materials.

Due to drastic deterioration, most of the scrapbooks have been disassembled and foldered separately. An effort has been made to keep scrapbook materials in roughly the same association. Materials involving the theatre were processed and foldered separately, as were photographs, negatives, and slides. Material is, where possible, organized chronologically within a given category, and most of the books containing scenery and costume sketches were removed and placed in oversized bundles.

**I. Original Scrapbooks** contains the contents of the original scrapbooks in the collections. Consists of correspondence, photographs, pamphlets, programs, newspaper articles, exhibition inventories and lists, and some materials regarding the theatre. Scrapbooks are organized in mostly chronological order. **II. Personal Papers** contains miscellaneous information regarding the life of Muriel Sibell Wolle. Includes correspondence, photographs, negatives, newspaper clippings, memorabilia, some financial records, speech notes, and contract agreements. **III. Theatre Materials** contains numerous photographs and sketches of productions in which Muriel Wolle was a participant. Includes programs, production notes, and some scripts. This information is divided into two sections, the first being scene and costume designs organized by date, the second being photographs and programs divided by director and date.

**IV. Native American Information** includes information on various Native American Tribes and Pueblos. Also contains a section on individual Native American Artists, with examples of their work. Mainly consists of newspaper and magazine clippings. **V. Research and Manuscript Materials** holds material relating to the writings and artistry of Muriel Sibell Wolle. Includes general information on ghost towns in the west, some more specific information on selected cities, working copies of her books, and completed manuscripts. **VI. Miscellany** Contains random information about individual artists, miscellaneous photographs, newspaper clippings, negatives of personal photographs, books, miniatures of medals awarded to Muriel Sibell Wolle, (Originals were lent to the University Museum), and some note cards which are possibly information notation. Also in this section are lists of drawings held by DPL.

**VII. Audio/Visual Materials** contains many negatives of ghost towns across the west, not including those in Colorado. Also includes more than 4,500 slides, mostly of Muriel Sibell Wolle's artwork, and some unmounted slides, rolls of developed film, and one reel of audiotape. **VIII. Oversize** contains Newspapers, flyers, memorabilia, maps, magazine excerpts, and bundles of sketches too large to fit into boxes.
