Collections / Services	Colorado history and politicians, 19th- and 20th-century U.S. West, organized labor, peace, citizen activism, radiation and health, women's history, environmentalism, business, and industry. The archives of the Women's International League for Peace and Freedom; Friends of the Earth; Western Federation of Miners; International Union of Mine, Mill and Smelter Workers; and the International Typographical Union. The papers of General William Carey Brown, Margaret Long, Josephine Roche, Omer Stewart, Edward P. Costigan, James G. Patton, Carl Johnson, Wayne Aspinall, Gary Hart, Timothy Wirth, David Skaggs, Patricia Schroeder, and David Hawkins.	Visual Arts and Built Environment including fine and graphic arts, outsider and decorative arts, art history, architecture, landscape architecture, environmental design, urban design and planning, photography and exhibition catalogs. Databases include Art Full Text/ Art Retrospective, Art Bibliographies Modern, ARTstor, Avery Index, Bibliography of the History of Art, and Design and Applied Arts Index.	Organizational management, business policy and economics, accounting, banking, finance, business law, marketing, real estate, small business, entrepreneurship, transportation, information systems, and human resource management. Douglas H. Buck Financial Records (annual and 10K reports on microfiche); Buck Electronic Media Room, and Internet access to Business Source Premier, EIU reports and data, Mergent Online, Thomson Research, LEXIS/NEXIS, National Trade Data Bank, Extensive corporate records, including annual shareholder and SEC 10-K reports. Over 50 electronic business information services covering U.S. and international scholarly and trade publications; business-related information from newspapers and magazines at all levels, local to international; company and industry financial and other information; investment analysis, accounting, tax, legal and regulatory information; a broad range of statistical data; U.S. and international directories.	Geology, physical geography, geophysics, geochemistry, mineralogy, paleontology, and oceanography. The Map Library collection consists of an estimated 200,000 maps, over 1,000 atlases and geographic reference books, and a growing collection of digital spatial data. Our collection provides well-rounded, world-wide coverage. The collection consists of general and thematic maps and atlases at small and large scales, mostly from the 19 th , 20 th , and 21 st centuries, and related reference materials such as gazetteers. The Map Library is a full Federal Depository Library and the majority of our maps are acquired through the Federal Depository Library Program from agencies such as USGS, BLM, U.S. Forest Service, Department of Transportation, NGA (formerly NIMA, DMA, and AMS), and CIA. The Map Library collection also contains Sanborn Fire Insurance maps of Colorado, historical aerial photographs of Colorado, many facsimiles of historical maps, and print satellite images. The digital data collection consists of digital maps on CD-ROM and digital geospatial datasets. It is founded on reference GIS datasets: the ESRI base datasets, the USGS/AGI Global GIS datasets, DOQQs for much of the Front Range of Colorado, DRGs for all of Colorado, and DEMs for the entire United States. The collection also contains thematic and more detailed data for certain areas.	Japanese and Chinese language and literature. Religion and literature from the National Diet collection of Meiji Era microfilm, Chinese local gazetteers, research materials about modern Chinese writers and literary works. People's Daily, 1946-1997, and Siku Quanshu on CD-ROM.	Aerospace, architectural, biomedical, chemical, civil, computer, electrical, environmental, mechanical, and systems engineering; interdisciplinary telecommunications; fundamental technology, applied mathematics; applied optics; dynamics, history and management of technology, materials science; and mechanics. Engineering societies' conference, journal, and report publications; ANSI and ASTM standards; extensive collection of engineering/technology literature indexing services, including online and CD-ROM. Local access to selected Wiley reference works online, selected CRC handbooks online, and the McGraw-Hill Encyclopedia of Science and Technology (Access Science).	Publications from all levels of government depository for U.S. government, state of Colorado, UN, and European Union; extensive holdings for World Bank, IMF, OECD, WTO, UNESCO, and other U.N.-affiliated organizations; very strong collection of British documents; technical reports: NTIS, DOD, DOE, NASA; online access to AccessUN, Declassified Documents Reference Service (DDRS) Digital National Security Archives, NTIS database, SourceOECD, Stat-USA, World News Connection and LexisNexis; Congressional, Government Periodicals Index, State Capital, and Statistical; Colorado By the Numbers (an online statistical compendium for Colorado).

Lends materials to other institutions and borrows materials not available in the Libraries for faculty, registered students, and staff. Includes books, dissertations, theses, and newspapers on microfilm.	Applied mathematics, mathematics, astro-physics, physics, computer theory and programming languages, astronomy, high energy physics. Local access provided to selected CD-ROM resources, including PDF (Powder Diffraction File) and TAPP (Thermochemical and Physical Properties).	Materials in a variety of media formats, including microforms and audio visuals. Microform Collections include newspapers, journals, British Studies, and other research collections. Audiovisual collections include subjects in the arts and sciences on video, DVD, laserdisc, compact disc, audiocassette, and slides. Services include audio-visual duplication, slide production, and self-service microform copying.	19th-century chamber music, opera, piano and vocal pedagogy, and musicology. American Music Research Center; Glenn Miller Archive; Lumpkin Folk Song Collection; manuscripts of composers Cecil Effinger, Norman Lockwood, and George Lynn; papers of musicologist Erich Katz; popular sheet music collection; 18th-century comic opera; California mission music; music of early New England singing schools; Moravian music; Renaissance, English, and Italian music manuscripts; computer-enhanced remote-control audio center.	Informational services, reference services (in person, telephone, virtual chat, email, specialized reference), and instructional services for university classes in the social sciences and humanities. Collection includes online resources, newspaper indexes and full-text databases, bibliographies, general and subject encyclopedias, dictionaries in many languages, atlases, college and career information, and resources on funding sources (grants/scholarships).	General science, biology, botany, chemistry, biochemistry, pharmacy, artificial intelligence, medicine, exercise physiology, behavioral psychology, nutrition, speech/hearing, zoology, and the history of science. Landmarks of Science; CD-ROM network and Internet access to Scifinder, Crossfire, Web of Science, Biological Abstracts, and Sports Discuss, PSYINFO, Science Direct, Zoological Abstracts.	Papyrus documents, medieval manuscript leaves, incunabula, English and American literature from the eighteenth century to the present, illustrated books, natural history, mountaineering, the Epstein and Bloch collections of children's literature, the Leo Miller John Milton Collection, original photographs by renowned photographers, the Tippit photobook collection, papers of Colorado authors, material on the history of the book and the book arts, and a large collection of fine-press books.	Provides research and information services to non-university businesses, organizations, and individuals; offers online literature searching, document delivery, and specialized research assistance. Charges fees for its services and operates on a nonprofit, cost-recovery basis.
